DIRECTIVE 2002/ 96/ EC European Union**

HÜCO electronic GmbH will state the following;

At the moment HÜCO is in the process to receive clear statements from our component-suppliers. Our component management and purchase department is also working on this topic. In this matter we are in direct contact with the electronic-component-suppliers. In this stage approx. 95% of our suppliers are conform with this new requirements. We are searching with other suppliers, which are not able to fulfill this directive, for an alternative solution at the moment.
